

Required Montana School Immunizations for entry into Kindergarten

- Polio (IPV) 3 doses and 1 dose given after the 4th birthday
- Tetanus/Diphtheria Pertussis (DTaP) 4 doses and 1 dose given after the 4th birthday. If a child receives DT without pertussis, he/she will need a medical exemption for the pertussis (whooping cough) component of the vaccine.
- Measles/Mumps/Rubella (MMR) 2 dose series. First dose after the first birthday, second dose before school entry.

The Advisory Committee on Immunization Practices recommends that anyone 6 months or older receive an annual influenza immunization.

For more information call the Immunization Program at 406.444.5580 or visit www.immunization.mt.gov.
